

The Gardens Memory Care

Memory Care

When memory loss or cognitive decline occurs, individuals benefit from memory care services on the third floor of The Gardens. Assisted living with memory care is designed to provide a safe, structured environment for residents with dementia. Routines are predictable to lower stress for memory care residents. Activities are tailored to the needs of residents with dementia.

At the Gardens, we understand that memory challenges affect some seniors, and are proud of our long history of providing memory care for individuals in assisted living. The Gardens memory care is staffed 24/7 to provide assistance around the clock and a call response system in every apartment provides a sense of security and safety. Family members gain the peace of mind that their loved one is safe and cared for by staff who understand Alzheimer's and dementia.

Fee Structure

Monthly fees are based on rent and health care services.

Rental fees vary depending on the size of the apartment, while services are bundled for two levels of care.

There is no upfront buy-in fee at the Gardens.

Apartment Type	Square footage	Monthly Rent
